Objective:

My goal is to obtain a Junior Front End Web Developer position where I can leverage my expertise in JavaScript, HTML, CSS, SCSS, and React to create responsive and user-friendly web applications that meet the needs of clients.

I'm an ex-HGV driver who has always enjoyed technology, but never knew where to start. Since not being physically able to work at HGV any longer, I decided to pursue my interest in programming with help of family members who are software engineers. I'm fairly new to programming but spend as much of my free time researching JavaScript and HTML/CSS. I also have pet projects to experiment with, and pair-program to try to understand how best to work in a team of developers - and gain insight into good programming practices. Being naturally self-motivated, I am constantly setting myself goals - if a job is worth doing it's worth doing well. I am punctual, hardworking and see every job I do, through to the end. Having worked in the armed forces, I am disciplined, follow instructions to a tee, and understand the importance of teamwork. I hope to eventually solve real-world problems using technology, and finally, kick-start a career in tech.

Skills

React.js • jQuery • Node.js • Jest • Wireframing • Responsive Web Design • HTML5 • TypeScript • User Experience (UX) • Problem-Solving • JavaScript • Bootstrap • Cascading Style Sheets (CSS) • HTML • SCSS • AJAX • Responsive web design • github

Projects

I have a number of projects I am working on, some on my own and some pair programming, Please feel free to look at my git hub: <https://github.com/marcahudson26>

Education

November 2022 - March 2023

EdX: skills boot camp into front-end web development.

Heritage Secondary School Awarded 6 GCSEs at grades A-D, including Maths, English, and Science. Other specialist subjects including Resistant Materials - gave me a working knowledge of woods, metals, plastics, and composite materials, which I later used in both my first job (fitting car parts) and my most recent job (cutting and joining aluminum).

Previous Employment:

Scott's heavy haulage transporting large oversized loads around the country. (2017- 2018)

Eve Trakway- Chesterfield Haulage/installation of tracks/barriers for public rock festivals, building sites, and royal events. Driver / Driver's Mate (2011 – 2017) Plan routes, drive to work sites, and lay panels within short time frames – ensuring to carry out own risk assessments. • Extremely flexible, working long hours with short notice and working away. • Great team player and team leader; often left in charge of work sites and managing workloads.

Tesco – Chesterfield Warehouse stocking goods for the Tesco supermarket chain. Warehouse Operative (2010 – 2011) Member of a large team responsible for picking stock for dispatch, replenishment stock using an onsite fork truck and manually loading lorries.

B&Q – Chesterfield Warehouse Operative (2009 – 2010) Picking and packing orders.

DSW - Creswell Driver, Trainee Mechanic, and Yardsman (2008– 2009)

Armed Forces – Princess Royal Barracks, Deepcut Royal logistics (2005– 2009) Trained to follow orders and work as a team to provide logistic support to ‘frontline’ soldiers.

Closing

Thank you for taking the time to review my CV. I am excited about the opportunity to contribute my skills and knowledge to a dynamic and innovative team. As a passionate and dedicated developer, I am committed to staying up-to-date with emerging technologies and trends in the field, and to continuously improving my abilities to deliver exceptional user experiences. I look forward to discussing my qualifications with you in further detail and learning more about how I can contribute to your organisation.
